

UPDATE ON \$100 BANKNOTE (2025 SERIES)

- The adjusted Coat of Arms (replacement of the ships with the steel pan) has been integrated into the design at no additional cost.
- Other changes compared to the 2019 Series involve a larger security strip incorporating recent banknote technology with, among other things, the Bird of Paradise in iridescent ink in a larger see-through 'window' with holographic elements.
- The 2025 Series is now scheduled for public distribution by September 2025.
- Stay tuned for further updates.
