- 1 With effect from January 1993, the valuation of Central Bank liabilities under the Use of Funds Credit is based on the current SDR/US market exchange rates. Previously, this valuation was calculated as a constant accounting rate of SDR 1 = US\$ 1.30.
- 2 With effect from April 13, 1993, Trinidad and Tobago shifted from a fixed exchange rate regime to a system whereby the par value of the Trinidad and Tobago dollar in terms of the United States dollar shall be based on prevailing market rates.
- 3 On March 15, 2007 the Heritage and Stabilization Fund Act (Act No. 6 of 2007) was assented to by the President. The Fund is managed by an independent Board of Directors and is no longer included in the Central Bank's assets.

1 The external debt outstanding shown in the table differs from the outstanding reported in the main public debt table sourced from the Ministry of Finance. This is due to differences in compilation methods used by the Central Bank and the Ministry of Finance in recording external debt transactions, as well as in converting the external debt into local currency.
